

¿How do you feel after this match? What do you know about Pacheco the Mexican who is your next rival?

Definitely very happy to get the win today , it wasn't an easy start but I haven't played any matches since Wimbledon. I was nervous and a bit rusty at the beginning, I'm just happy to turn the game around . That is very important for me, just this week trying to find my game again . The second and third were amazing,.

Pacheco and me have known each other over the years .

We've played the exhibition last November and we got to meet each other for a little bit but I'm a big fan of his and he has an amazing game . He is not definitely in his ranking . He has beaten very high ranking players in the tournament. Like I said on the court, it's always fun to play with fellow lefty I feel we are always. I think you become more creative and more flashy , and it will be very fun , I think it's the first time I play with a mexican in Mexico . I hope the fans won't be chanting like in the World Cup. I believe we are going to have fun in a great atmosphere. I love the matches, it will be fun.
