Hi Arthur , Whatvwas the key during this week because the conditions were difficult? The key wea trying to be less stressed today and be in the gane as much as posible and put the physique: this was the key.

Hi Arthur , I believe that this win you will be in the Top 100, at the beginning of this week did you think this was possible, getting to the final? Of course was possible but at the beg of the week it was far from possible, so I played match by match. My goal.was to achieve the 100, it is a good achievement but I still have the final, I hope I win.
